

GATACRE CAPTURES STORMBERG

Burghers Retreat With Their Guns Drawing Off Towards the North.

BRITISH ADVANCE SLOW

Roberts Reports That Cape Colony Has Been Entirely Cleared of the Enemy.

BOERS RETIRE SWIFTLY BEFORE ADVANCE OF BRABRANT.

Stormberg is the Stronghold Which Attempting to Take in December Gatacre Met With Serious Defeat.—The Loss of This Place Marks the Collapse of Boer Invasion Into Cape Colony.—All These Successes, However, Cost Many British Lives.—Roberts Keeps Advancing Steadily Towards Bloemfontein.

Molteno, March 6.—[Special Cablegram]—Gen. Gatacre advanced with ten guns today unopposed and occupied Stormberg. The Boers left with their

GENERAL GATACRE.

guns, drawing off northward and destroying the railway culverts. Stormberg is the stronghold in attempting to take which Gen. Gatacre suffered his most serious reverse last December. The evacuation of Stormberg, which was the strongest position held by the Boers in northern Cape Colony, marks the collapse of the Boer invasion in that section.

At all points where they have opposed the British the Boers are in retreat and word is soon expected from Gen. Roberts that Cape Colony has been cleared.

Gen. Clements, who has advanced beyond Colesberg to Joubert's siding is doubtless harassing the Boer retreat on Norval's Point.

As in the case of Buller, Gatacre's final success is cheapened by Roberts, whose advance on Bloemfontein is the real cause of the Boer withdrawal.

Brabant Put Boers to Flight. Dordrecht, March 6.—[Special Cablegram]—Today Gen. Brabant followed up yesterday's attack on Labushagene Nek and captured a fort. The Boers retreated in good order, pursued by the cavalry. British casualties in today's and yesterday's fighting are about thirteen killed and seventeen wounded.

Roberts Reports an Advance

London, March 6.—[Special Cablegram]—Gen. Roberts cables from Oosfontein under date of March 5 as follows: "Gen. Buller reports that Natal is practically clear of Boers, he cannot hear of any formed body anywhere. The Boers left some ambulances full of sick and wounded after taking the mule for transport purposes." The second dispatch dated March 6 says: "The duke of Marlborough with a company of Yeomanry left yesterday for Naauport. Clements is at Joubert's siding, one station beyond Colesberg. The railway north and west of Stormberg is being repaired."

Boers Preparing to Stand

Oosfontein, March 6.—[Special Cablegram]—The Boers opposite the British front are being constantly reinforced. They are working on the trenches and to all appearances are preparing for a stand. The Modder river bisects their position.

Presents Horrible Spectacle. London, March 6.—[Special Cable

gram]—A dispatch from Mooi river, whither the Ladysmith garrison are being brought to recuperate, says the ground traversed presents a horrible spectacle. The deserted Boer trenches are filled with dead animals in various conditions of mutilation and putrefaction. Many fresh graves are washed out by rains, and from the earth sticks the arms and legs of the dead burghers.

MAKING IS HARD PRESSED

Stray Dogs and Horses Are Made Into Soup For Garrison

London, March 6.—The war news so far as actual fighting is concerned is practically nil. This morning Buller sent a list of casualties aggregating 1,100 in the recent fighting in Natal. Lord Roberts has dispatched a strong force northwards from Kimberley to Matoking and promises the early relief of Baden Powell, as Matoking is beginning to feel the pressure of the siege. Food is short and horses and stray dogs are being made into soup. Clements is pushing ahead through the Colesberg country and now holds the road bridge due north of Colesberg, from which he is threatening the bridge at Forva's Point. This is another door to the Free State and another line of communication with Roberts.

Gatacre is near Stormberg and is threatening the Boer position there, and with the aid of Brabant is expected to attack at any hour. The Mail says Chamberlain wants 2,000 Australian bushmen, and for that reason anticipates the troubles in the Transvaal will degenerate into a guerrilla war.

SOLDIER LOSES HALF HIS BRAIN

Private O'Leary Submits to a Wonderful Operation

London, March 6.—Among the wounded soldiers who arrived at Southampton today from South Africa is Private O'Leary, whose case is remarkable. He was shot in the head during the battle of Colenso. The bullet lodged in his brain, rendering him speechless, sightless and paralyzed. His life was despaired of, but Sir William McCormac president of the Royal College of Surgeons, who was acting as volunteer surgeon with the British army in South Africa, removed a portion of the wounded man's brain, extracted the bullet, and O'Leary has since practically recovered his lost senses.

THOUSANDS TO AID THE BOER CAUSE

Germans and Irish Promise to Throng the Chicago Auditorium Thursday Night.

Chicago, March 6.—Preparations were completed yesterday by representatives of the German newspapers of this city for the anti-war pro-Boer meeting to be held under the auspices of the German newspaper editors at the Auditorium Thursday night. More than 10,000 persons of all nationalities will attend, but the majority will be Germans. Funds to be raised to assist the Boers and a hospital corps to be sent to Africa are the purposes of the meeting.

The meeting promises to be the largest ever held for the benefit of the Boers. At present several thousand Germans are fighting with the Boers and several hundred men are on the way to take up arms to assist the burghers.

The Germans of this city, while deeply in sympathy with the Boers cannot leave their homes to take up arms but they are willing to send large sums of money and to assist in other ways in the struggle for their freedom. The meeting will be attended by hundreds of Irishmen and Bohemians.

QUAY SAID TO BE SURE OF HIS SEAT

Thorough Canvass of the Senate Shows That Pennsylvania Boss Has Ten Votes to Spare.

Washington, March 6.—Matthew Stanley Quay's managers in Washington completed a thorough canvass of the senate this morning, and after they had compared figures they announced that they Pennsylvania boss had ten votes to spare. The result was so surprising that they decided to force an immediate division upon the right of Quay to take his seat upon the appointments of the governor of Pennsylvania. The vote would be demanded for today if Senator Chandler of New Hampshire who wrote the minority report is in favor of Quay, was in his seat. Mr. Quay's managers want Chandler to make a speech, and he has informed them that he will be ready to do so tomorrow. Senator Burrows, who joined with the democrats in a report to keep Quay out, will make a speech in support of his attitude this afternoon.

Capt. George Cook Reiter, who has been added to the command of the new battleship Wisconsin, has arrived at his post of duty with the ship at San Francisco, and notified the navy department that he would remain to superintend the fitting of his magnificent ship, which, it is expected, will go into commission next fall.

Representative Gillet of Massachusetts, today introduced a bill prohibiting the sale of distilled or intoxicating liquor in the Philippines in quantities less than twenty gallons except on a physician's prescription for medicinal purposes.

WISCONSIN IN GRASP OF THE BLIZZARD

GREAT FALL OF SNOW REPORTED FROM MANY POINTS.

Traffic Delayed on All Steam and Electric Railways—Gale Blowing on Lake Michigan—Milwaukee Harbor Blocked With Slush Ice—Rides Flywheel and Lives.

Milwaukee, Wis., March 6.—Yesterday ten inches of snow fell here, and it is still snowing. The wind is blowing thirty-five miles an hour from the northeast, and no letup in sight. The traffic lines are now becoming badly blocked. The steam roads were able to keep the tracks clear this morning, but all the evening trains from the north are several hours late, and the storm is reported heavy north of here. Freight trains are temporarily abandoned.

The electric lines are in great trouble. The Wauwatosa and Waukesha lines are practically abandoned, and no attempt is being made to get cars through on the Racine line.

On the lake a gale is blowing from the east and all of the steamers on the winter lines are being kept in port. The strong wind has driven the ice back into this port. At the life saving station, however, it is said the harbor is practically blocked with slush ice fifteen feet thick, through which no boats can move.

Other Wisconsin Points

LaCrosse reports eight inches of snow in the last twenty-four hours, accompanied by a high northeasterly wind and a fall of 30 degrees in temperature. Street car traffic is kept open only by continuous efforts. All incoming trains are late.

At Sheboygan there was a heavy fall of snow yesterday, and this morning the storm started with renewed vigor. Sparta reports a heavy snow and wind storm, which is still raging. A foot of snow has already fallen and is drifting badly.

At Racine eleven residents spent their entire Sunday in a Milwaukee-Racine electric car which was stuck in a big snowdrift eight miles from the city.

An Electric Parade

Milwaukee, Wis., March 6.—The central feature of the Carnival this year will be an electric parade of sixteen floats. This was definitely decided at the meeting of the board of directors yesterday afternoon. Another Carnival feature was decided on definitely, although it later will probably be more or less elaborated. A permanent monument of granite will be erected in Grand Avenue park, in front of the Deutscher club. The committee decided that four days was the right time for the Carnival, and it will doubtless begin on Tuesday and close on Friday.

Rides a Fly Wheel and Lives.

Milwaukee, Wis., March 6.—Whisked at lightning speed through two-foot holes in the floor, and an unknown number of times around a nine foot flywheel, and finally hurled through the air twenty-five feet against the far end of the engine room, Fred Tieck is still alive. More than that, he escaped without a broken bone, and the doctors say he will be able to go to work tomorrow. Evansville Carnival Nets \$500.

Evansville, Wis., March 6.—The ladies of Evansville held an advertising carnival for the benefit of the public library Friday and Saturday. The net receipts were about \$500. There has been raised for the public library in the last six months over \$2,000.

McLeod and O'Hara Meet Tonight

"Dan" McLeod and Jack O'Hara will meet in a wrestling match tonight at Fond du Lac for a side bet of \$200. McLeod agreeing to throw O'Hara three times in an hour or forfeit the match. Both men are in great condition and a good contest is looked for.

EUGENE V. DEBS IS NOT A CANDIDATE

Social Democrats Are Gathered in National Convention at Indianapolis Today.

Indianapolis, Ind., March 6.—Many delegates to the social democratic convention, which meets here today arrived this morning. Among the more prominent delegates who are already here are Victor L. Berger of Milwaukee, Eugene V. Debs of Terre Haute, and his brother, Theodore Debs of Chicago; Mayor John C. Chase, J. P. Carey and William Maitly of Haverhill, Mass.; Mrs. Margaret Hall of Boston, Philip Zorn of Cincinnati; Mayor Coulter of Brockton, Mass., and Representative McCartney, also of Brockton.

The convention opened at Reichwein's hall at 10 o'clock this morning. The most important duties the convention has are the nomination of a presidential ticket and action on unification with the social labor party. V. L. Berger, member of the national executive board, said last night the nomination of Eugene V. Debs for president would mean 1,000,000 votes for the social ticket. It is understood, however, that Mr. Debs has notified some of the leaders in the convention that he does not want the nomination.

Miss Elizabeth Wilcox left last evening for New York City. On March 10, she leaves for an extended trip in Europe.

AN OPEN REVOLT IN THE SENATE

FREE TRADE AMENDMENT TO PORTO RICO BILL BY DAVIS.

Minnesota Senator Wants Constitution Extended Over Island—Members Said to be United For Free Trade—President Hears People are Against Policy.

Washington, D. C., March 6.—There is open revolt in the senate over the Porto Rican tariff and it has started with senators of such dignity and age of service as to give it unusual importance. Senator Davis of Minnesota, chairman of the Foreign Relations committee and one of the Peace commissioners to Paris, opened the battle by an amendment for free trade between the United States and Porto Rico.

Its effect is to have the tariff laws of the United States applied to Porto Rico upon foreign imports but allows absolute free trade between the United States and Porto Rico.

Not-Precedent for Philippines

Senator Davis says his amendment speaks for itself. It extends the constitution over Porto Rico, and by so doing implies that it cannot be extended to the Philippines or other territories except by legislative action.

It is said the senator will have the support of practically all the northwestern senators. A caucus is talked of to make the tariff a party measure, but it is doubtful if such tactics succeed as well in the senate as they did in the house.

Senate Will Vote For Free Trade

In view of the condition of public sentiment the two Minnesota senators have declared themselves absolved from all loyalty to the committee report, and it is believed they will have behind them as a nucleus Hansborough of North Dakota, Wellington of Maryland, Aldrich of Rhode Island, and others. The opinion is gaining ground that the senate will ultimately vote for a free trade proposition and that the house will accept this and admit its blunder as gracefully as possible.

Tell President of Sentiment

Not only in the capitol, but in the executive departments, the reports received are all of the same general tenor. Trusted members of the administration have come from Chicago, from New York, from Boston, and other cities, and the sentiment, as they find it is all one way.

The people, they say, do not care much about the constitutional question, and do not care whether Porto Rico does or does not become a precedent for action in regard to the Philippines. They merely declare that, as the Porto Ricans received Miles' army with flowers instead of with bullets, they must come into the union, if at all, "on the ground floor."

IT IS EXPENSIVE TO DIE IN ENGLAND

Estate of the Late George Smith Nets the British Government \$4,500,000.

London, March 6.—It is expensive even to die in England, and the privilege cost the late George Smith, formerly of Chicago and Milwaukee, or rather his heirs, the immense sum of \$4,500,000. Had Mr. Smith realized the hole the British government would make in his estate it is quite likely he would have chosen another spot than London for his death, for George Smith was not a man to squander his money. The story of this enormous death fee was made known for the first time last evening by Sir Michael Hicks-Beach in his budget speech.

"That one person," said Sir Michael Hicks-Beach, "unwillingly contributed to the exchequer more than the cost of an ironclad." The statement was received with cheers, indicating that even members of Parliament enjoy stories of mulcting dead millionaires.

Chancellor Hicks-Beach himself displayed great satisfaction when this feature was announced, as he was responsible for the draft and passing of the law in 1894 fixing the present death rate. The Chancellor's statement clears up the much-discussed mystery of how much "Chicago" Smith really was worth.

According to the scale, estates worth a million or over are assessed at the rate of 8 per cent, which would make Smith's fortune something over \$55,000,000.

"SAPHO" IS UNDER THE BAN.

Olga Nethersole and Others Held in \$500 Bail Bonds—Play Prohibited.

New York, March 6.—Miss Olga Nethersole, Proprietor Moss of Wal-lack's theater and several others concerned were held in \$500 bonds each for trial in special sessions by Magistrate Mott Monday for producing the play "Sapho." Chief of Police Devery, as soon as the decision was announced, ordered the police to suppress all further attempts to produce the play. There was no performance at Wal-lack's theater Monday night.

BATTLE IN THE PHILIPPINES.

Americans Kill One Officer Killed—Eight Men Are Wounded.

Manila, March 6.—News has been received of the expedition commanded by Gen. Bates, consisting of the Fortieth and Forty-fifth volunteer infantry, and Kenley's battery, which sailed for the province of South Camarines on Feb. 15. The expedition arrived in San Miguel bay on Feb. 19.

Col. Godwin, with a battalion of the Forty-fifth regiment, disembarked, under the direction of Commander Green of the gunboat Marietta, on the southwest side of the bay, and occupied the road to Nueva Caceres. It marched to Lihimana, northwest of Nueva Caceres, and demanded the surrender of the town, which was refused.

The Americans then attacked the rebels, killing 120 of them. The American loss was one officer, Lieut. John B. Galleher, killed, and eight men wounded. Two of the Americans were wounded by bolomen.

A second column, consisting of two battalions under Lieut.-Col. Parker, disembarked under the direction of Lieut.-Commander Irwin on the southwest side of the bay and occupied the main highway of South Camarines, meeting with only slight opposition.

Meanwhile the vessel conveying Gen. Bell and three companies of the Forty-fifth regiment grounded at the mouth of the Bicol river, on which Nueva Caceres is situated.

Gen. Bates took three battalions to attack Nueva Caceres. When he arrived at the town he found the gunboat Paragua, Gen. Bell and a company of the Forty-fifth regiment in possession of the place. The enemy were fleeing to the mountains.

On Feb. 24 Col. Dorst, with six companies of the Forty-fifth regiment, started on a reconnoitering and foraging expedition, which will occupy an indefinite time.

EIGHTY MEN ARE BURIED IN A MINE

Frightful Disaster in a Coal Shaft Near Montgomery, West Va.—Caused by Gas Explosion—Fifty Dead Bodies Now Taken Out—Twenty-five More Still Entombed and No Doubt Dead.

Montgomery, W. V., March 6.—[Special Telegram]—A gas explosion occurred this morning in the mine at Fire Creek, entombing about eighty men. Rescue parties have brought up five dead and seven badly injured. There is little hope of recovering the men remaining in the mine.

At noon fifty dead bodies had been taken out.

It is now said that twenty-five more men are in the mine, and are believed to be dead.

It is now known that at least sixty and probably seventy-five men were killed outright, and about twenty-five more are imprisoned. Reports of the disaster vary greatly.

The surrounding country is in the wildest state of excitement and details from the scene are meagre.

The mine is over one thousand feet deep, and it is feared the rescue parties will be unable to reach the unfortunates.

GOOD CHANCE FOR BLOODY CIVIL WAR

Democrats of Kentucky Will Buy Arms if Taylor Removes Those Owned by the State.

Frankfort, Ky., March 6.—If the democrats adopt a resolution introduced in the senate by Senator Triplett, an anti-Goebel democrat, there will be a good chance for civil war in Kentucky.

The members of the legislature have been greatly wrought up for several days over Taylor's action in sending several car loads of Gatling guns, cannon, rifles and ammunition to London. If the reports are found to be true and return of arms is refused the committee appointed to make the investigation under the resolution shall then bring in a bill making an appropriation of \$250,000 to buy new guns and also authorizing General John C. Castleman to issue a call for a sufficient number of volunteers to take guns from those now in possession of them and return them to the arsenal. A storm of applause followed the reading of the resolution.

It is said that General Castleman has 500 men at his command and is ready to act if the bill is passed.

In the democratic senate Senator Bell introduced a bill which provides that any state officers who shall forcibly hold possession of the office for a longer period than five days after the legislature or state contest board shall have declared another person legally elected shall be guilty of a felony.

NEW PHILIPPINE COMMISSION IS NOW COMPLETE

Prof. Bernard Moses of California University is Appointed.

TO ORGANIZE AT ONCE

They Will Establish a Filipino Civil Government as Soon as Possible.

The \$300,000 Yearly Subsidy Bill For a Cable From San Francisco to Hawaii, Guam, Manila and Japan Was Favorably Reported to the House Today by the Committee, on Commerce—The Bill Provides That the Cable Must be Finished on or Before 1903.

Washington, March 6.—[Special Telegram]—Prof. Bernard Moses of the University of California, called on the president this morning and was tendered the last place on the Philippines commission, which he accepted.

The commission is now complete comprising the following: W. H. Taft, Cincinnati; Prof. Worcester, Michigan; Luke Wright, Tennessee; Henry Ide, Vermont, and Prof. Moses of California.

The commissioners will be called to Washington at once for organization and instructions and will soon thereafter sail for the Philippines to begin their task of organizing a civil government for the Filipinos.

The president for some time was considering the appointment of ex-Gov. George W. Peck of Wisconsin, for a

For New Pacific Cable

The house committee on commerce today ordered a favorable report on the bill for a cable from San Francisco to Hawaii, Guam, Manila and Japan. The bill provides for a three hundred thousand dollar subsidy annually. The cable must be laid to Honolulu by 1902 and to its final destinations by 1903.

Admiral Watson Believed

Admiral Watson was relieved of the command of the Asiatic squadron today on account of ill health. Remy succeeds him.

Mrs. Lawton was presented by Gen. Corbin with a check for \$98,000 this morning, representing the amount collected by popular subscription.

In the senate today Nelson of Minnesota, offered an amendment to the Porto Rican bill providing for absolute free trade between the United States and Porto Rico.

HOTTEST ELECTION IN OMAHA'S HISTORY

Sheriff Has Charge For the Democrats and Chief of Police for the Republicans.

Omaha, Neb., March 6.—[Special Telegram]—The hottest election contest in Omaha's history is going on today. The democratic authorities at the polls are represented by the sheriff; the republicans by the chief of police.

Each side has made numerous arrests and a collision of a tragic nature is imminent.

At noon the sheriff called on the Chief of Police and served notice on him that if the police continued to interfere with the deputies he would storm the jail with a thousand men if necessary and release the deputies arrested earlier in the day.

ACCIDENT NEARLY COST HIM HIS LIFE

TREE FALLS UPON A WELL-
KNOWN BRADFORD FARMER.

Death of Miss Cenie Osborn—Funeral of Mrs. Oliver Wood—Well Attended Teachers Meeting Saturday—Activity in Tobacco Warehouse—Clinton News and Notes.

Clinton, March 5.—R. G. Inman, a well-known young farmer of Bradford met with an accident Saturday morning that nearly cost him his life. He was assisting the hired man to fell a tree on his farm. The tree dropped in the opposite direction from what was expected. Mr. Inman made a desperate effort to get out of the way. A heavy limb projecting from the trunk struck him on the head and shoulder, knocking him with great violence to the ground. The injured man was carried to his home bleeding from the mouth, nose and ears. Doctors Jones and Botzer of Clinton were hastily summoned. They found no bones broken but the face and head badly bruised and swollen. The sight of one eye was temporarily gone. It was difficult to determine the exact extent of the injuries. Mr. Inman was resting easily on Sunday and unless something unforeseen arises will recover.

Miss Cenie Osborn for many years a resident of this village died suddenly of apoplexy at the home of S. F. Dana in Cincinnati Saturday evening. Deceased was sixty-six years of age at the time of her death. She was born in Richfield, Springs, N. Y., and came to Wisconsin with her parents, Mr. and Mrs. Cyrus Osborn, and settled in Clinton about 1870, where she lived until the death of her mother, nine years ago, her father having passed away in 1888. Since then she has traveled extensively spending a year in Europe. She visited Clinton one year ago staying most of the winter. Three sisters and one brother mourn her death. They are Mrs. Harriet Chamberlain, Clinton; Mrs. Hester Getman, Richfield, N. Y.; Mrs. Fanny Dana, Cincinnati; E. A. Osborn, Beloit. A sister, Mrs. Helen M. Helmer died in 1883. The body of Miss Osborn will probably be brought to Clinton for burial.

The remains of Mrs. Oliver Wood, step mother of A. B. Shattuck were brought here for burial Saturday. The deceased died at the home of her son in Rockford having went there from Baraboo but a short time ago to live. She spent a little time in Clinton week before last, and was then in usual health, but was taken with pneumonia soon after reaching Rockford with fatal result. Mrs. Wood was eighty-one years old and had lived many years in Clinton, occupying the place now owned by A. H. Haase. Her husband died ten years ago. Her former husband, father of ex-Village President A. B. Shattuck, passed away some twenty years ago. Her children and many grand children were present at the interment.

The Teachers' meeting held in the Sabbath school building Saturday was attended, some fifty teachers being present. The school board and many citizens attended the afternoon session. A resolution was presented at the close of the session by Prof. R. E. Loveland, the substance of which provided that a commission be established for the purpose of giving examinations to pupils who desire to enter a higher school, thus relieving the teacher of an embarrassing responsibility. The resolution was adopted.

The tobacco warehouse of Henry B. Foltz presents an active scene these days. Over 30 hands are employed in sorting and packing tobacco in cases. The majority of the help is young women, girls and boys from the village. They make very satisfactory wages at this work, which began Jan. 3rd and will continue up to April 1st. Mr. Foltz has purchased upwards of 250,000 pounds of the weed in bundles from the farmers of this vicinity for which he has paid them some \$12,000 in cash. It is not unusual to see half a dozen wagons at one time waiting to unload at the warehouse. The tobacco purchased is nearly all delivered. Two-thirds of it is now in the case. Between 500 and 600 cases are now stored in the upper floor of the building ready for shipment over the C. & N. W. Ry., which has a sidetrack running to the warehouse. The tobacco growers here are highly pleased with this year's prices and are much money ahead.

GOOD WEEK FOR CAR LOAD FREIGHTS

SIXTEEN OF THEM SENT OUT
FROM VILLAGE OF MILTON.

Large Contribution to the College Gymnasium Fund—Prof Crandall Sick With Fever in the Holy Land—Social and Personal News and Notes From Milton.

THE GAZETTE AGENCY
W. W. CLARK, Manager.
Milton, Wis., March 5, 1900.

Last week was one of the best weeks of the season for car load freights to and from this station. Out freights included three cars of hogs by Vincent and Hasseger, five of tobacco by Soverhill and Porter, three of tobacco by H. W. Child, one of tobacco by J. L. and M. F. Greene, one of tobacco by L. Sylvestre & Son, and six of shredded corn by G. R. Fetherston. Soverhill and Porter received four cars of tobacco, T. A. Saunders two of lumber and one of coal, J. S. Fetherston one of bran, Dunn, Boss & Co. one of flour, and Has'kins and Crandall one each of emigrant movables, a grand total of thirty car loads in six days.

The largest contribution to the college gymnasium fund up to date is C. M. Gates of the Creamery Package Co., Chicago, who sent a draft for fifty dollars. Mr. Gates graduated from Milton in the class of '76. Among other donors are Capt. Norcross, Janesville, Dr. Rad, Chicago; Hon. L. B. Caswell, Fort Atkinson; Dr. W. B. Morgan, St. Louis; Mrs. A. F. Dodge, Marietta; A. H. Smart, Michigan City, N. D., and every mail almost is bringing responses from friends of the institution far and near. The success of the project seems assured, but more funds are needed for apparatus.

The many friends of Prof. C. E. Crandall will regret to hear that he is the victim of an attack of intermittent fever, contracted in Palestine. He is at Berlin, Germany, and Mrs. Crandall writes that he is not dangerous ill, and it is hoped that his physicians will break the fever.

The guests from out of town at the Werner-Davis wedding were: Fred Werner, Black River Falls; Mrs. James Burges, Madison; Mr. and Mrs. John Cunningham, Janesville, and Miss Susie B. Davis, Shawano. Rev. Dr. Platts was the officiating clergyman.

Rise in Price of Drugs.

New York, March 6.—To the alleged monopoly of the chemical trusts and in part to the conflict in South Africa is attributed the pronounced increase in the price of many standard drugs which have shown such a decided tendency to bound upward during the last few weeks that sickness has become a luxury in New York, and a similar condition of affairs is reported from other parts of the country. Cocaine, quinine, aqua ammonia, fluid extract of ergot and iodide of potassium, for all of which there is a large and constant demand, have all advanced in price since Feb. 1.

From Washington

How a Little Boy Was Saved.

Washington, D. C.—"When our boy was about 16 months old he broke out with a rash which was thought to be measles. In a few days he had a swelling on the left side of his neck and it was decided to be mumps. He was given medical attendance for about three weeks when the doctor said it was scarlet fever and ordered a saline. He wanted to lance the sore, but I would not let him and continued giving him medicine for about four months when the bunch broke in two places and became a running sore. Three doctors said it was scarlet fever and each ordered a blood medicine. A neighbor told me of a case somewhat like our baby's which was cured by Hood's Sarsaparilla. I decided to give it to my boy and in a short while his health improved and his neck healed so nicely that I stopped giving him the medicine. The sore broke out again, however, whereupon I again gave him Hood's Sarsaparilla and its persistent use has accomplished a complete cure. I do not think there will be even a scar left. I cannot speak too highly of Hood's Sarsaparilla and I recommend it everywhere I get a chance." Mrs. NETTIE CHASE, 47 K St., N. E.

Like Magic. "A complication of troubles, dyspepsia, chronic catarrh and inflammation of the stomach, rheumatism, etc., made me miserable. Had no appetite until I took Hood's Sarsaparilla, which acted like magic. I am thoroughly cured." N. B. SEELY, 1874 West 14th Ave., Denver, Col.

If you have failed to get relief from other remedies try Hood's Sarsaparilla. It cures when all others fail, because it is Peculiar to Itself.

ROBERTS' PLANS NOT KNOWN

He Is Not Confiding His Moves to the Public.

MAFEKING IN SORE STRAITS.

Soup Made of Dogs' Heads and the Feet of Oxen Being Served to the Garrison of the beleaguered City—Increase in British War Budget.

London, March 6.—So far as is known here, Gen. Roberts has not yet commenced any important operation. His latest dispatch, dated Oshfontein, March 4, reports that Gen. French had another successful skirmish with the Boers that morning.

The correspondent of the Standard describes Gen. Roberts' position as most advantageous. The Sixth division on the right holds all the kopjes to five miles south of the Modder river. The Seventh division, in the center, is immediately south of the river. The Ninth division is on the north bank. Gen. French's cavalry is on the left front, and the mounted infantry under Col. Ridley Marlyr is on the right front. The surrounding country consists of wide, grassy plains, broken ridges and isolated kopjes.

Besides the Boers on the flat-topped hill north of the river, where Gen. French shelled them on Saturday, 4,000 of the enemy hold an isolated group of hills south of the Modder and opposite the mounted infantry. Their position is surrounded by level plains, over which they must make their way in order to reach the river. Consequently the position seems to be very precarious. The correspondent of the Telegraph says that the Boer front extends for eighteen miles south of the Modder river.

According to the report from Cape Town an expedition for the relief of Mafeking is apparently well on its way. A strong force, including the Kimberley light horse, is moving north from Kimberley.

There is little news from Mafeking. A dispatch of doubtful date, apparently Feb. 19, states that the shelling had somewhat lessened, but the rifle fire had increased, greatly endangering movements in the streets. The troops of the garrison were digging trenches throughout the town to protect pedestrians, but when it rains the trenches are impassable. Food was becoming scarce, and the whole town was on short rations. "The allowance of the natives," the dispatch adds, "is necessarily very small."

A soup kitchen has been started, and horses and dogs' heads and the feet of oxen were being made into soup, which, the correspondent declares, should be a great boon to all. The Boers were busy digging new advance trenches.

The nature of Gen. White's attempt to intercept the retreating Boers on March 1 shows the undaunted spirit of the garrison. Despite physical weakness, Col. Knox, in command of a little column, consisting of two batteries, 1,000 infantry, and three squadrons of cavalry, marched toward Pepworth station, but the men were so exhausted that they could scarcely drag themselves along.

Nevertheless they were determined to reach their late besiegers. The Boers detached a strong rear guard to cover their movements. A skirmish followed, in which a Highlander was killed and Col. Pickford was wounded. The column occupied several positions, but Col. Knox, finding that the men and horses were utterly exhausted, ordered his force to return. Two artillery horses died in the traces from weakness.

Contrary to some accounts of the Boers' withdrawal, the Standard's correspondent at Ladysmith declares that they retreated in masterly fashion, not losing a single wagon or ox. Only a few small camps fell into British hands. The report of the capture of the Boers' "long Tom" is not confirmed, and it is apparently untrue.

The Times' correspondent at Colenso says that only about 400 men remain of the Dublin fusiliers.

ASKS \$215,000,000 INCREASE.

British Government's Financial Estimates Submitted to Commons.

London, March 6.—In the house of commons Monday Sir Michael Hicks-Beach, chancellor of the exchequer, presented the budget and made the statement that but for the war there would have been a surplus of £5,500,000. The total receipts of the government for the financial year had been £118,000,000, and the expenditures, exclusive of the war credits, £110,500,000. The estimates included £60,000,000 on account of the war and defensive operations at home that were made necessary by the war.

The chancellor of the exchequer estimated that the total expenditures for 1900-1901 would be £154,000,000. This is an increase of £32,000,000 over the expenditures of 1899-1900.

The increased taxation, it is estimated, will realize £12,317,000. The £43,000,000 which the government proposes to borrow, the chancellor said, was for the purpose of meeting the deficit which the final adjustment shows.

Sir Michael explained that, owing to the fact that the budget was submitted a month earlier than usual, the figures for the current year were only approximate. The total expenditure had been £132,810,000, showing, owing to the military expenditure, a deficit of £17,770,000.

ENGINEER BROWN TALKS COMPROMISE

Looks Now as Though He Would Make a Settlement Without Going Into Court.

Members of the common council held a brief session last evening. A half hour before Mayor V. P. Richardson called the meeting to order the aldermen were busy talking over the existing trouble between City Engineer Perry F. Brown and the City of Janesville. Mr. Brown was not present nor was he even represented by an attorney. But this did not prevent members of the council conversing with Mr. Brown. Over the telephone they talked with him freely which finally resulted in a compromise being arranged.

According to the agreement it is claimed that Mr. Brown has consented to withdraw his resignation as well as the suit that he has commenced against the City of Janesville.

Further consideration of the matter was continued until Monday evening of next week, March 12.

The daubage bill filed by Joseph E. Hoffman, Alex. E. Hoffman and Charles L. Culton, was referred to the judiciary committee.

On motion of Alderman Carpenter the ordinance providing for the election of the street commissioner by the council instead of by the people, was given its third reading and adopted.

Alderman Carpenter also moved that an ordinance adopting a portion of the general charter law be given its first and second reading, which was done. The rules were then suspended, the ordinance given its third reading and put upon its passage and adopted.

Alderman McLean moved that when the council adjourn it be to next Monday evening, March 12, at 7:30 o'clock. Adopted.

SENATOR BARD TAKES OFFICE.

California Man Seated Among the Statesmen at Washington.

Washington, D. C., March 6.—In the senate Monday the newly elected senator from California, Thomas R. Bard, was presented by his colleague, Mr. Perkins. The oath of office was administered to him by Senator Frye, president pro tem. Mr. Bard is a tall, fine-looking man of about 50, with gray hair and mustache. He took his seat on the democratic side of the chamber, there being no vacant desk on the republican side.

The conference report on the financial bill was taken up in order to give Mr. Teller an opportunity to conclude his speech in opposition to it. He declared his belief that the proposed legislation would be disastrous, and expressed the hope that the time would come when it would be reversed through the common sense of the people. It was the culmination, he said, of an effort to make money dear by the exclusion of half the metallic money of the world. The conference report went over without action.

The pension appropriation bill was taken up next. It appropriates \$146,245,220, being about \$12,000 more than the appropriations for the current year. The number of pensioners on the roll in 1899 was 991,515, as against 489,722 in 1889, and the average annual value of each pension \$132.74. The average annual value of pensions allowed on account of the war with Spain is \$195.53.

In discussing the bill Mr. Allen of Nebraska declared himself in favor of "an enlarged pension policy." There was nothing to be gained, he said, by "a hair-splitting and higgling process respecting pensions." The bill was passed.

The resolution declaring Matthew S. Quay not entitled to a seat in the Senate was taken up, and Mr. Carter of Montana made an argument against the resolution and in support of Mr. Quay's right to the seat. The Quay case was then laid aside without action, and the conference report on the financial bill was again taken up. After an executive session the senate adjourned.

In the house a bill to incorporate the Frederick Douglass Memorial association met opposition under the lead of Mr. Bailey of Texas, who required a roll call upon every step in its consideration. The bill was ordered to be engrossed and read a third time, after

If your hands are rough, hard or chapped from the repeated washings necessary to keep them free from the office dirt, examine carefully the soap you use. If it is a cheap toilet soap, you will find that it is greasy, acrid and irritating.

Ivory Soap makes a profuse lather that removes the dirt and rinses easily, leaving the skin soft and clean.

If your office force is large there are two considerations that will recommend Ivory Soap to you. It is quick in action, saving time; and is inexpensive.

Several general bills were passed, the most important being one to ratify the treaty with the Comanche, Kiowa, and Apache Indians of Oklahoma, which has been before congress several years.

TO RULE THE PHILIPPINES.

The Spooner bill is reported to the Senate.

Washington, March 6.—The senate committee on Philippines decided to report the bill introduced by Senator Spooner of Wisconsin for control of the Philippines. Senator Lodge, chairman of the committee, made the report to the senate. The bill is as follows: "That when all insurrection against the sovereignty and authority of the United States in the Philippine islands, acquired from Spain by the treaty concluded at Paris on the 10th day of December, 1898, shall have been completely suppressed by the military and naval forces of the United States, all military, civil and judicial powers nec-

essary to govern the said islands shall, until otherwise provided by congress, be vested in such person and persons and shall be exercised in such manner as the president of the United States shall direct for maintaining and protecting the inhabitants of said islands in the free enjoyment of their liberty, property and religion."

THIS DAY IN HISTORY.

1831—Philip Henry Sheridan, Union general, born at Albany; died at Noquett 1888.

1836—Slaughter of the Texas garrison in the Alamo by order of Santa Anna.

1863—President Lincoln's message to congress recommending purchase and manumission of slaves in the border states. The measure provided pecuniary aid from the national treasury to those slave states which should gradually abolish slavery. Congress passed a bill to that effect, but none of the slave states responded.

1867—Artemus Ward (Charles F. Browne), the most famous American humorist, died in Southampton, England; born 1834.

1888—Louisa May Alcott, author, died in Boston; born 1832.

1896—Edwin Forbes, a well known American artist and a veteran war correspondent with the Union armies, died in New York city; born 1830.

1898—Cavellotti, a popular Italian poet, killed by the editor of the Gazzetta di Venezia in a sword duel.

1899—Princess Kaiulani of Hawaii died at Honolulu; born 1875.

MR. QUARLES IS SENSIBLE

A "maiden speech" in the United States senate is usually made as dramatic as possible, and the speaker bends every effort to "make a hit." All preliminaries are attended to, and when the galleries are full, and every peg in place, the senator goes to bat—but not until then.

Senator J. V. Quarles of Wisconsin, however, is not of that stripe. His "maiden speech" was made when opportunity offered to advance a worthy cause, and was brief, and to the point. He did not seek to draw attention to Senator Quarles, but to the merits of the pending measure—the proposition to vote \$250,000 to Lilioukalani, in payment for the "crown lands" in the Hawaiian islands. Mr. Quarles made a concise argument, closing as follows:

"Now, Mr. President, there are knocking at the doors of congress today hundreds of poor, old, maimed soldiers and sailors, asking to increase their little bounty or pension, and I for one would much prefer to take the \$250,000, which is a crumb to eat, and give it to these poor, old cripples rather than to place the queen of the Sandwich islands on our pension roll."

Beloit Free Press.—The Third and Fifth congressional districts have called their conventions for nominating congressmen to be held in April. Similar action can be very properly taken in this the First district. There is no opposition to the renomination of H. A. Cooper, our present representative, and preliminary caucuses and one congressional convention can be avoided. Besides it would be a deserved courtesy to our representative to bestow upon him the compliment of an early and unanimous nomination. His ability, faithfulness and experience have won for him a high and important legislative position, and his constituency will honor themselves by this mark of their appreciation of the honor conferred upon the First district of Wisconsin through their representative.

Evansville Review.—Sunday was a marked day in the history of the seminary. The executive committee of the board of trustees at its mid-winter meeting elected the Rev. L. B. Webb financial agent. He at once began to form plans for the payment of the remaining indebtedness, and for the thorough equipment of the seminary for first class work. Mr. Webb's first attempt at raising funds was made at the seminary chapel. The people present on the occasion responded nobly to his appeal and subscribed \$866.

Enemies of General Corbin—principally pettigrew—raised the point that Corbin had been charged with cowardice during the civil war. When the records were consulted, it was found that Corbin had been acquitted of the charge. This man pettigrew is a nice specimen, and no mistake. Nothing appears to be mean or unfair for him.

Milwaukee ministers are attacking President McKinley, saying that the president drank wine at a banquet in Milwaukee. It may be well to remember in this connection, however, that there is supposed to be a strong prejudice against wine in the Cream City, as in competition with the other stuff.

Germany now proposes, apparently to make her stringent anti-American meat law look like two pounds of link sausage.

Porto Rico people can never raise the point that "they have no friends in the United States."

The fact that The Associated Press spells it Puerto also works an injustice to many well meaning papers.

The La Crosse Chronicle must plead guilty, too.

Cook Stove

A new kind of Stove that beats all records for superior points. They are made for either coal or wood and save from one-third to one-half the fuel used by other Stoves.

They are easy Stoves to work with; they occupy less floor space than ordinary Cook Stoves, and yet the oven is larger. It will bake faster and more evenly than any other Stove and is warranted not to warp. Water will boil on every hole. The grate is easily adjusted at the front as is also the ash pan. The STEEL GEM STOVE is guaranteed in every particular and is well worth investigating.

Good Farm Homes Cheap

The Chicago & Northwestern Railway Company owns 550,000 acres of hard wood timber land in Northern Wisconsin, which lands are now being offered to actual settlers at low prices. The lands are well located, afford railway, postal, church and school advantages. These lands should not be confounded with the pine stumpage lands now offered in this market. Land that grows pine is invariably sandy.

The C. & N. W. Tracts grow hard wood and cannot be excelled by any "openings" in the country.

The logs, posts and poles find ready sale at nearby saw mills, and when the land is once cleared excellent agricultural soil is the result.

THE LOT OF THE WAR CORRESPONDENT

How He Dogs the British Advance and Lives In a
Cape Cart on the Veldt.

BY CYRUS SYLVESTER.

Two or three horses are necessary to the outfit. This yacht of the veldt also requires a crew. One good handy man who knows how to drive, take care of horses, cook and put up a tent usually comprises the crew.

In one of the accompanying illustrations is shown the camp of a war correspondent. This correspondent, by the way, is Earl de la Warr, who represents the London Globe with Methuen's division. He is a real earl too. Another picture shows Mr. Shelly of the Westminster Gazette. He is standing beside his traveling cart, which is of the "Cape" pattern. Both pictures are from photographs made by Earl de la Warr, who uses a camera as well as a pen at the front.

From these pictures you get a clear idea of the manner in which the war correspondents live during a campaign. It is their business to travel with the advance division if they wish to see the fighting. But army officers are singularly reticent as to future movements, and so the correspondent must be ready to strike camp and move to the front at any hour.

The journalistic nobleman just mentioned is a most interesting chap. The earl's wife was formerly the Hon. Mrs. Muriel Brassey, a daughter of Lord Brassey, the governor of Victoria, Australia. He is of a roving and adventurous nature and, although only 30 years of

The men who are gathering war news in South Africa are facing difficulties and dangers which make their task anything but an enviable one. Most of them are attached to the English forces. There are several reasons for this. In the first place, the majority of them represent English journals. In the second place, the means of communication, limited as they are by British press censors, are much better than from the Boer side of the conflict.

Of course the rigid censorship presents the chief difficulty to the war correspondents who follow the British

EARL DE LA WARR OF THE LONDON GLOBE.

lines. The cable has been practically closed to them. Their only resource is the mails. This means that when their letters get into print the events about which they write are fully a month old. Then there are the dangers. Only by exercising the greatest caution can a war correspondent keep out of the danger line. True, he can sit on a hillside two or three miles away from the firing line and watch the movement of the troops through his fieldglasses, but this is an unsatisfactory manner of viewing a battle.

Most of the correspondents are brave men, just as willing to take their chances inside the danger line in the pursuit of news as are the soldiers who hope to win promotion at the risk of their lives. And this is what they do. Only the other day there came the news of the killing of one war correspondent and the capture of another. They were Australian journalists who had accompanied the colonial troops into battle.

When he is repelling an attack, the Boer cannot make nice distinctions between combatants and noncombatants. He assumes that any one who advances on the spot where he is entrenched is an enemy, and he acts accordingly. You can hardly blame him.

Mr. Stevens, one of the best known war correspondents in the world, lately died in Ladysmith of fever contracted by reason of his long confinement in that beleaguered city. The capture and escape of Winston Churchill, another war correspondent, are well known incidents. The Boers treated him as a prisoner of war in spite of his journalistic professions.

All this goes to show that a war correspondent must take the same chances as the soldier. This he does without complaint and without hope of unusual reward. No Victoria cross awaits him. If he is killed, no one pensions his widow.

In order to become an authorized war correspondent attached to the British army the candidate first faces a formidable knot of red tape. To untie this he presents himself at the British war office with credentials from the papers which he wishes to represent. There he must answer a long

A CORRESPONDENT'S CAMP ON THE VELDT.

list of questions. Then he goes away and waits. His record is minutely investigated. If he is found to be a responsible person and one who has done nothing in the past to earn the displeasure of the military authorities, his application is granted, and he is given the necessary documents.

A NEW KIND OF CORNER.

A Cozy Place In Which to Indulge Occasional Notes, Etc.

In flats or small houses, where space is scarce and a goodly amount of room has to be given up to seats of all sorts—chairs, lounges, cozy corners, and so forth—it is often advisable to use combined furniture and to turn to profitable account the angles which are generally mere waste space. Everybody wants a writing table, but as tables encroach upon room space the family desk frequently has to do duty for all the members of the home circle.

The sketch suggests a writing corner that can be easily carried out and that will be found very convenient in many homes where, owing to insufficient room, it is impossible that each member of the family should be provided with a desk proper.

The table itself consists merely of a triangular piece of wood about a couple of inches thick, the front being afterward curved. This is fitted into the corner of the wall at a convenient height and is supported by and nailed to wooden brackets screwed to the wall.

It is a good plan to have, above the table, a little corner cupboard for a relay of stationery and ink and also to add a series of pigeonholes for letters and notebooks and bills that can be cunningly concealed by a small curtain of silk; or the cupboard could be used for these things and a shelf take the place of the pigeonholes. Such useful articles as a wall calendar and a waste paper basket must be added to complete the writing corner, the table itself being of depth and width sufficient to hold the blotting pad, ink, pen tray, scales and weights and stationery cabinet, some of which could, however, for the sake of more "elbow room," take up their places on the shelf above.

As corners are usually dark places, adequate means of lighting up must not be forgotten. A wrought iron suspended lamp with a rose or amber shade should be fixed to the wall unless a floor lamp happens to be situated close by.

If green paint would accord with surrounding fittings, the table, corner

A WRITING CORNER.

cabinet and shelf may be stained dark malachite green, and the little silk curtain should be in old gold color; also the cabinet should have brass clamps and key plate. One finds the convenience in every sitting room of having at hand a set of writing materials.

Another idea for a small, inexpensive occasional writing table is to fix a wooden shelf, about 18 inches long and 12 inches wide, to a backing of wood of equal length and some 12 inches high. This backing can be secured to the wall by means of the usual brass plates and nails and the "table" be further supported by a bracket beneath. The wooden back can be decorated with hand painting or with a calendar, small framed picture, etc. This backing might, of course, be dispensed with altogether, but it is effective.

The whole coloring should be preferably in cream or malachite green, but the wood could, of course, be stained mahogany or oak. A little writing table of this sort is useful for a hall.

The Egg Cocktail.

The egg cocktail is an appetizer which has lately sprung into prominence. It is prepared by taking for each person one-half of a teaspoonful of vinegar, one tablespoonful of lemon juice, one-half teaspoonful of horse radish, one-half teaspoonful of tomato catchup, mixing together and adding one beaten egg. It should be served in a tall glass with a long handled spoon.—Table Talk.

Fashion's Echoes.

Dainty handkerchiefs in pale colors embroidered with white are pretty trifles, which are exceedingly effective if they match the prevailing color in the costume.

The newest underskirts are made of fine black or colored French flannel and have numerous narrow ruffles of silk, bound with velvet or lace trimmed. The soft cling of the flannel is just what is necessary under the present close fitting skirts.

The really new French sleeve is innocent of any extra fabric at the top. The drop shoulder effects appear not only on dressy afternoon and evening dresses, but likewise on many of the recently imported bridal gowns, bolero jackets, tea gowns and costly French nightdresses.

Pale shade of gray and beige color are the tints in dress gloves and are quite as much worn as white.

Club or string ties with fringed ends are seen in plaid, striped and plain silk and satin.

Russian lace in heavy quantities is fine.

Convert Burns His Library.

Marshall O. Waggoner of Toledo, Ohio, the infidel, whose conversion to Christianity was recently announced, has burned his magnificent library, consisting of writings of infidels. The ashes of the books are in the bottom of the furnace of the Memorial United Brethren church of Toledo, to which he privately consigned them. He threatened to destroy this collection some time ago, but delayed doing so until the night of Jan. 8. With supreme satisfaction and a feeling that he was doing God's will, the aged lawyer watched his precious volumes wither and crumble into ashes in the furnace heat. Many of the volumes were exceedingly rare. There were a large number of manuscripts and first prints not to be found in any other library in America.

ARMORY LAST EVENING.

Boys Failed to Bring Their Best or
Second Best Girls For Some Reason
It Was More of a Stag Party Than
Anything Else—Music by Smith's
Orchestra.

Louis G. Hancock's farewell ball took place at the Armory last evening. It was a success in every way except in point of attendance. The disagreeable weather, together with the fact that many invited are keeping Lent, resulted in about twenty girls and fifty boys accepting Mr. Hancock's hospitality. The invitations read, "a masquerade ball." But you would not have known it. When Prof. Johnny Smith and his five men played the opening waltz just two masked couples made the circle of the hall. Prof. Johnny Smith's face was all smiles. He couldn't help it. The scene was an odd one.

The guests began to arrive at 8 o'clock. There was no reception committee. No chaperones were on hand. Boy after boy arrived and not one brought a girl. Finally three young men entered each having a girl or two. These young ladies were all masked and their great popularity soon manifested itself. They were in great demand and their dance programs were filled long before the fair ones fully realized the situation. Then more girls arrived.

By this time the clock in the corner struck the hour of nine. Still the female situation showed but little improvement. But the boys kept coming. That was where the great difficulty showed itself. If they had only brought girls. But they didn't. Mr. Hancock was not slow to realize the situation and removing his mask he made haste to the dressing room where he read the riot act to many of his boy guests upbraiding them in language that was blue for having failed to bring girls. Girls were all that was needed to make the function one long to be remembered.

This fact Mr. Hancock especially impressed upon the mind of two of his boy "friends" who have been most intimate with him since his brief residence here. They were both on hand unmasked and both without girls.

One of the young men said: "I could not get a girl. I telephoned three different ones this afternoon. One said she was sick, another said her mother objected and the third one hung up the phone and never gave me an answer after receiving my invitation."

Then the musicians played that dreamy waltz, "There's Only One Girl In This World For Me." Twelve couples waltzed. Some were not masked. At 10 o'clock the grand march took place. Then all unmasked. The surprises were few and far between. No one felt like laughing. The few costumes were unique. Mr. Hancock, the host, was attired in a sailor costume that looked well on him. Two of the young men guests were dressed as coons. Another represented a Jew. Then the "all waltz" order was given and till 1 o'clock the dancers made merry. No refreshments were served.

The guests were all under twenty-one years of age. When they took their departure they all declared their host a "good fellow." Several said "Long live Hancock." Mr. Hancock has been a resident of Janesville but a short time. He has been attending Valentine Bros. school of telegraph.

The ball of last evening was in the nature of a farewell party as tomorrow Mr. Hancock takes his departure for Poughkeepsie, N. Y., where he will attend a military school. His home is in Wilmington, North Carolina.

GIGANTIC CONTRACT FOR HAYES BROS.

UNDERGROUND RAILROAD IN
NEW YORK CITY.

Contractor John B. McDonald of New York Wants the Local Firm to Bid on the Work—Will Cost \$35,000,000—Writes Personal Letters Urging Immediate Action.

Michael and Dennis Hayes, members of the local contracting firm of Hayes Brothers, are now figuring on taking a portion of the grading contract for the construction of the great underground railroad that is to be built in New York City.

The contract for the work has been awarded to John B. McDonald, an eastern contractor. Mr. McDonald now intends to sublet the work. The contract price calls for the gigantic sum of \$35,000,000. A personal letter has been received by Hayes Bros. written by Mr. McDonald urging them to take a portion of the work.

Michael Hayes said this morning: "As yet we have done nothing definite about entering into a contract. Probably on such a large contract forty different contracting firms would be engaged. Before the work is completed the cost may reach fully \$40,000,000. Before long we expect to reach some definite understanding as to whether or not we will assume a portion of the work."

PREVENT OAT SMUT AND POTATO SCAB

An Important Bulletin Issued to Farmers By State Horticulturist
E. S. Goff.

Madison, Wis., March 6.—E. S. Goff, horticulturist for the Wisconsin Experiment station, has issued a newspaper bulletin on preventative of oat smut and potato scab, as follows:

"The loss to the farmers of Wisconsin due to smut in oats amounts to hundreds of thousands of dollars annually; practically all this loss may be saved by treating the seed oats before planting, at a very slight cost. All that is necessary is to thoroughly saturate the seed oats with a solution made by adding one pound of formalin to 50 gallons of water. To use this remedy, place a layer of oats three or four inches thick on the barn floor and sprinkle them with the formalin solution until they are entirely wet; then another layer may be placed on the first layer and sprinkled as before, repeating the process until all the seed oats have been sprinkled; then leave them in the pile for two hours, when they should be spread out thinly to dry. They should be shoveled over once or twice a day until dry. If they are to be sown broadcast, it will not be necessary to dry them.

"Formalin may be purchased at any drugstore, and costs from 50 to 75 cents per pound. About one gallon of the solution is enough to sprinkle a bushel of oats, hence one pound of formalin is enough to treat fifty bushels of seed oats. Formalin is not dangerous to use. The oats will not be likely to be injured by it, even if left in the piles somewhat longer than two hours.

"The value of formalin as a preventive of potato scab has been demonstrated by several experiment stations. The treatment is easily applied, and gives in most cases a crop much freer from scab than untreated seed, and in soil free from scab germs, the prevention is generally complete.

"Immerse the unsprouted seed potatoes before cutting, for two hours in a solution of one-half pound of formalin in fifteen gallons of water. If the tubers are deeply scabbed, extend the time three or four hours. After treatment cut the tubers in the usual manner. The same solution may be used five or six times in succession if the immersion is continued a little longer each time.

"Do not use the potato solution for oat smut, as it is too strong; nor the oat solution for potatoes, as it is too weak."

DETECTIVE WORK WAS NOT SMOOTH

La Prairie Farmer and His Hired Man Have Not Served With Pinkerton.

Janesville, March 6.—Editor Gazette: The town of La Prairie farmer who had his house entered and his watch and money stolen, never practiced under Al Pinkerton, as the following will prove. He started in pursuit and all went well until he reached Eastern avenue, at the junction of Beloit avenue, then this tiller of the soil had "located" his man on Eastavenue. Never once were the footprints on the freshly fallen snow taken for any save a burglar's—and their burglar too. It never dawned upon the amateur detectives that two popular south side young men had returned late from town. Oh! no. No one save a housebreaker went over that road. To the gates of both young men they found tracks, one plainer than the other. "This is our man." In less time than it takes to tell Officer Hogan and Turnkey Brown were rapping for admittance at an early hour of the morning. The young man was out late. But can not a young man stay out late—or rather early—unless he is house breaking? The La Prairie farmer thought not, but Officer Hogan knowing the exemplary reputation the young man bears was convinced he was innocent. Not so La Prairie.

On leaving the house of the "located" one they proceeded to Beloit avenue and there found a clew. By this time the real offender had put time between the officers and himself.

It was to satisfy the farmer that so much disturbance was caused on the south side. Chief Hogan was positive before entering the house that the boy was innocent, but this measure was taken to make the La Prairie man feel the same as he did.

Devonshire's "Singing Man."

Devonshire, Eng., has lost its chief "singing man." The "singing men of Devonshire" are those who preserve and chant the old West Country songs and ballads. James Parsons was a hedger by profession and a musician by nature. It is due to Parsons that the county still possesses so many of its old-time airs and verses. He was known throughout the county as "The Singing Machine," a title due to the fact that some years ago, after an evening's bout, he took and won a bet that he would go on singing until sunrise and never sing the same song twice.

Combination Investment Affairs Go Into Federal Court.

SCANT ASSETS ARE FOUND.

Cash Amounting to \$200,000 Said to Have Disappeared Mysteriously—Liabilities About \$500,000—Title and Trust Company Named as Receiver.

Chicago, March 6.—The affairs of the Combination Investment company, a "get-rich-quick" concern, which recently failed, have been transferred from the state to the federal court on bankruptcy proceedings. The Chicago Title and Trust company has been named as receiver and Sidney C. Eastman as referee.

The first move in closing up the business of the defunct concern will be made March 16 at 9:30 a. m., when a meeting of creditors will be held in Mr. Eastman's office.

Up to date the assets recovered by the receiver amount to \$200,000. The liabilities are estimated at from \$300,000 to \$500,000, with between 3,000 and 5,000 creditors. Piling nominal expenses involved in the receivership and court proceedings, as matters now stand the creditors will receive less than 3 per cent.

Mr. Wilson says that all the assets that he has been able to find are represented in the \$200,000 now in his hands.

The smallest creditors have claims of \$25 and they range from that sum to \$40,000. A claim of this size is presented by Mrs. Mary B. Bonnell, a wealthy widow, whose address is given as the Waldorf-Astoria hotel in New York city. Mrs. Bonnell was originally a claimant for \$94,000, but \$54,000 of this sum was paid to her by Receiver O'Donnell a few days after the failure.

Mr. Wilson has made a searching investigation of the books, and he has learned that \$40,000 was drawn out of the bank by Treasurer Coates a few days before the failure. A check for \$800 was also paid out to Mr. Gallagher.

A number of the creditors are residents of South Dakota and an interesting story is told which involves several of the larger of these creditors. Shortly after the failure of the Franklin syndicate in New York city the South Dakota depositors in the Combination Investment company came to Chicago determined to withdraw their money. They were heavily armed and were prepared to enforce their claims with revolvers if necessary.

The depositors were met by President Hammond and Secretary Coates, who promptly paid over the \$15,000 credited to the claimants. This unexpected action surprised the South Dakota men, and they returned home with stories of the stability of the Combination Investment company. These stories were widely circulated, with the result that a few days before the failure of the Combination heavy deposits came in from the western state. The deposits included the \$15,000 withdrawn and as much more from friends and neighbors of the once disastituted ones.

Mr. Wilson declares that he has been unable to learn the whereabouts of either Hammond or Coates. He is anxious to find the latter for the purpose of learning what became of the \$40,000 withdrawn from the bank a few days before the failure. The assertion is made that Hammond and Coates were telegraph operators, and that they represented other persons who were the actual backers of the Combination. These men are supposed to have about \$200,000. One of them is said to have recently shown signs of having a considerable sum of money, and his name is closely connected with the failure of the Combination Investment company. This money is supposed to have drifted through the defunct concern into his hands.

The books of the Combination Investment company fail to show the names and addresses of depositors, and the lists thus far secured by the receiver have been compiled from letters received by him. The books show but few deals in grain, and few persons familiar with the concern believe that any large portion of the money lost by creditors disappeared in speculation.

STONE AND MISS BECK FREE.

Alleged Swindlers Released by Order of Federal Court.

New Orleans, La., March 6.—E. E. Stone and Sarah Beck were discharged from custody by order of Judges Pardee and Shelby of the United States Circuit court, before whom they were brought on a writ of habeas corpus after a requisition for their delivery to representatives of the Chicago police had been signed by the Governor of Louisiana and served on the authorities of the Parish prison. The decision of the court is based on the fact that the warrant did not set forth that a criminal process was pending against them in Illinois, and that the language of the warrant was vague and ambiguous.

Stone and Miss Beck were arrested in New Orleans by Detective McSherry of the Pinkerton agency three weeks ago on warrants sworn out by D. W. Moody, agent of the defunct Security Savings society. Moody, who was recently indicted for his connection with the "get-rich-quick" trust investment concern, charged Stone and Miss Beck with conspiracy to defraud, alleging that they were partners in the Security Savings society with W. R. Bennett and one Bland.

Smallpox Seizes a Student.

MILLER DEAD IN THE RUINS.

Man Who Was Suspected of Arson Found Burned to Death.

Chicago, March 6.—While detectives all over the city were searching for him with warrants for his arrest on the charge of arson, the body of William Miller, a hardware dealer at No. 2849 Archer avenue, lay in the ruins of his home, burned almost beyond recognition. Workmen who were clearing away the debris of the house which was destroyed by fire a week ago came upon the remains of the supposed incendiary, and had them taken to a nearby undertaking establishment. The body was found in an icebox, which the man had been repairing, when a gasolene lamp he was using to assist him in his work exploded and set the house on fire.

Iowa Bank Robbed.

Ottumwa, Iowa, March 6.—When Barney Wall, cashier of the Farmers' Savings bank at Farmington, a small town near here, opened the door to the vault of the institution Monday morning, it was discovered that robbers had secured entrance to the vault during Sunday and made off with a large sum of money, claimed to amount to \$17,000. The officials are reticent about the sum taken and deny that it was \$17,000. The officials claim the bank will not be seriously crippled by the robbery, as a large amount of gold and silver was left untouched, the robbers taking nothing but currency.

All the Miners Free.

Carbondale, Ill., March 6.—The miners acquitted of the killing of Floyd were released after the four remaining indictments against them had been nulled by the state's attorney of Williamson county, and the men returned to their Carterville homes. The estimated cost of the case, including both prosecution and defense, is claimed will reach more than \$80,000.

You may run away from hydrophobia, because you can see it coming in the frothing tongue and the snapping jaws of the mad dog. But the diseases which carry off the greater part of mankind there's no running away from. They are

stealthy, insidious, and come as a thief in the night. Six per cent. of the daily deaths are due to consumption. The name of the disease suggests the horror of emaciation, the labored breathing, the hectic color, the night sweats which mark the struggles of the daily weakening victim.

To those with weak lungs, obstinate, lingering cough, bronchitis, and kindred ailments which, if neglected, lead to consumption, Dr. Pierce's Golden Medical Discovery brings hope, help and healing. Its cures have been many and marvelous. Thousands who had lost hope, have found a permanent cure in "Golden Medical Discovery."

"Last spring I wrote you in regard to my health which at that time was very poor," writes Mrs. Alice M. Barnes, of Garfield, Pawnee Co., Kansas. "My trouble was bronchial affection. Symptoms: spitting of blood almost every morning for five years, shortness of breath, raw and sore throat, loss of strength, at times almost loss of voice, irregular periods—in fact I thought I was surely going into consumption. I consulted you and you advised me to give Dr. Pierce's Golden Medical Discovery a trial, which I did and with happy results. I used two bottles of 'Golden Medical Discovery' and health returned as I used the medicine. I have only raised blood three times since I began using it. My periods are regular, strength renewed, and I am almost a new person. I am a lady that was cured of consumption by this same 'Golden Medical Discovery,' and she always sings its praise."

Some dealers may offer you a "just as good" medicine in place of Dr. Pierce's, because there's more profit in the sale of the substitute. If any dealer thinks more of his profit than of your patronage, he's not entitled to your trade.

FOUR GOOD SALADS.

An old proverb says, "To make a perfect salad there should be a mixer for oil, a smallish fork for vinegar, a wise man for salt and a madcap to stir the ingredients up and mix them well together."

BEET SALAD.—Cut a pound of cold beet into slices, put in a salad bowl and mix with a head of shredded lettuce. Dissolve a teaspoonful of salt in four spoonfuls of salad oil, stir in a little pepper and mix well with the salad; then add two spoonfuls of good vinegar, stir lightly with a fork and serve.

HERRING SALAD.—Soak three herrings overnight and cut into small slices. Boil seven medium sized potatoes and two small onions. When cold, cut into dice. Chop the two onions, a little roasted veal, four sour cream and three hard-boiled eggs; mix well, serve with mustard dressing.

WALNUT SALAD.—Blanch the walnuts and add to them a suitable quantity of the little tender inner leaves of a head of celery, then toss them about lightly with some mayonnaise, and after that arrange the salad in your salad bowl, mask it with mayonnaise and garnish with capers and anchovies, or a few small bits of the salad poured over the top. Garnish it with mayonnaise and surround it with the quartered olives and capers.

TWO DELICIOUS DESSERTS.

APRICOT TAPIOCA.—Soak one cupful of fine tapioca for two hours in sufficient cold water to cover, drain and then put into a double boiler with quarter of a cupful of sugar and the skin drained from a can of apricots, adding boiling water sufficient to give three cupsful of liquid, add half a teaspoonful of salt and cook until transparent. Put each piece of apricot into three small cups, put in layers in a pudding dish with the cold tapioca, bake for half an hour in a moderate oven and serve with cream.

NEAPOLITAN BLANCMANGE.—Dissolve two-thirds of a package of gelatin in one pint of hot milk, add two spoonfuls of a cup of sugar and divide into three equal parts. Into one stir the beaten whites of two eggs, add three spoonfuls of vanilla into the second and the hot lemon juice and the third into the third stir two heaping tablespoons of cream chocolate dissolved in a little warm water and flavored with vanilla, add the heat white of an egg, mix each one of the three parts, yet a mold, pour in the chocolate and then add the white and later the yellow. When perfectly cold, turn out on a dish and serve with whipped cream.

Weak, Worn-Out Men

Renew the Springtime of Youth and Vigor!

DR. GREENE'S NERVURA

Blood and Nerve Remedy

Renews, Vitalizes, and Invigorates Weak Men.

Old before his time! A broken-down, miserable wreck—weak, nervous, discouraged!

The world to him seems a place of mist, peopled with ghostly beings, whose vigorous flitting to and fro about their daily tasks serves but to irritate him. He sneers at healthy amusements, and finds no comfort or pleasure in life.

He is sick and he does not know it. He drags about, and therefore thinks he is well. He is despondent, and peevish, and weak, and he does not know that these are merely signals—some from the stomach crying for aid—others from the nerves beseeching strength—still others from the great life-current—the blood—meaning that it is so impeded and clogged with impurities that it cannot move.

He, and all others like him, will find immediate relief in Dr. Greene's Nervura blood and nerve remedy. This is just what it was intended for. It never fails to make weak men strong and vigorous—puts new life, vim, strength, power, and energy into them.

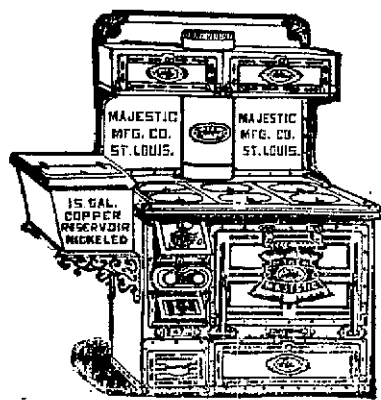

Mr. JOHN D. SMITH, electrician for the Thomson-Houston Electric Co., of Lynn, Mass., says:— "When a man has been sick and is cured, it is his duty to tell others about it, that they, too, may get well. Three years ago I had been working almost night and day, could not eat regularly, and got only a few hours' sleep at night. No man can stand that long, and I soon began to be prostrated. I could not sleep when I tried, and my food would not stay on my stomach. I was in a terrible condition and was much alarmed.

I went to doctors, but they did me no good. Learning of the wonderful cure done by Dr. Greene's Nervura blood and nerve remedy, I determined to try it. It cured me completely of all my complaints. I eat heartily and sleep well, thanks to this splendid medicine. I believe it to be the best remedy in existence."

Dr. Greene, 35 West 14th St., New York City, is the most successful specialist in curing nervous and chronic diseases. He has remedies for all forms of disease, and offers to give free consultation and advice, personally or by letter. You can tell or write your troubles to Dr. Greene, for all communications are confidential, and letters are answered in plain, sealed envelopes.

The Perfection Of all Reservoir Ranges

Is reached in a range that will work equally well with soft or hard coal, wood or cobs; bake, roast, boil, seethe or fry to perfection; heat all the water you need almost instantly; properly used, last a lifetime, and save its price in a year.

MAJESTIC Malleable Iron and Steel RANGES

does all of it, and the reservoir is so arranged that it will not boil, "thump" and steam you out of the kitchen. This range will not clog with ashes and clinkers, allow smoke and soot to escape into the kitchen, crack or break, or subject you to the expense and annoyance of every other cooking apparatus.

LABOR FIGHT IS PUT OFF.

Storm Interferes with Plans for a Test of Strength.

Chicago, March 6.—The stormy weather of Monday operated to effect a postponement of the expected hostilities between labor and capital. But a few men who did not belong to the unions were put to work, and both sides rested, awaiting a time when a fair contest could be had. It is freely admitted that trouble is likely to occur this week, and both sides are on the alert to anticipate it.

St. Louis, Mo., March 6.—The St. Louis Transit company has started a movement to prevent its employees from connecting themselves with labor organizations, and wholesale discharges of conductors and motormen have been made.

Alexandria, Ind., March 6.—Work was resumed Monday in the four departments of the Republic Iron and Steel company's plant here, giving employment to 400 men. The men were notified that they will be paid weekly. This is the first victory won by Indiana employees of the company in their fight for the enforcement of the state law. It is thought weekly payments will now be granted in all factories owned by the company in this state.

Grand Rapids, Mich., March 6.—For the next six days the delegates of the Amalgamated Woodworkers' International Union, which has a membership extending throughout the United States and Canada, will be in session in this city.

CHINN MAKES DENIAL.

Declares He Did Not Fire the Shot That Killed Goebel.

Lexington, Ky., March 6.—Col. Jack Chinn, the warm personal friend of Senator Goebel, who was with him when he was shot in the state house yard on Jan. 30, was here Monday. He had been to his home in Harrodsburg, and had just seen the article in a New York paper of Saturday, written by a Lexington man, in which he was virtually charged with the killing of Goebel. The writer had signed himself "A Kentuckian," and, after arguing the

case pro and con, left the impression that Chinn fired at Goebel to make the public believe there was an attempt to assassinate him, and that he was killed accidentally. When asked about this, Chinn said: "There is not one word of truth in the insinuation, and the man who wrote it knew there was not. I was close to Goebel, and could have seen any man who might have shot him, so the other story saying he was shot by a stranger who was walking behind him is untrue. Had I seen a man shoot him he would never have got away alive."

SECRET OF A LONG LIFE.

Californian Who Is 113 Says He Takes Daily Sun Baths.

Weyerhaeuser, Wis., March 6.—Andrew Joseph Thompson of Santa Rosa, Cal., aged 113 years, is here to attend the marriage of his great-granddaughter, Irene Tibbels, who lives near this place. It is not stretching the truth to assert that Mr. Thompson appears about 65 years of age. He stands as straight as a pine, has square shoulders, and his face is full and round. There is nothing in the man's walk to suggest his great age. "The fact is," said Mr. Thompson, "that I am so old and so healthy is because I have discovered the secret of not eternal life at least of

Orangeine

"Women's Comforter."

(Third Lesson.)

What it Does for Humanity.

Briefly, it almost instantly stops all pains and aches, Headaches, Neuralgia, Rheumatism, even Toothache, and through its action on nerves, stomach and liver, it cures "Grip," Catarrh, Hay Fever, Asthma, Colds, Diarrhoea, Nervousness, Sleeplessness, Sensitiveness and other "every-day ills." In the Chicago "Grip" epidemic of 1899 it never failed to cure when taken under the simple but complete directions given; and the Hay Fever "powder" before each meal and before retiring, "last summer proved "Orangeine" to be the first and only sure relief from this dread disease. Every package contains full directions from Dr. Aikman's long and varied experience. (See Lesson No. 4.)

MINERS' TRAIN IS WRECKED.

Several Men Killed and Many Injured by a Rear-End Collision.
Brazil, Ind., March 6.—The miners' train on the Chicago & Eastern Illinois railroad, conveying more than 300 workmen from the mines to this city, was wrecked by a local freight train running into it about 6:30 o'clock Monday evening and its human freight scattered about the track and buried under the debris. The engineer had stopped his train in a deep cut, two miles north of here, to let some of the miners off, when local freight train No. 175 darted around a sharp curve and dashed into the rear of the miners' train, crushing the caboose to splinters and badly smashing two coaches loaded with miners. Two more coaches were derailed and piled in a mass at the foot of a decline. Miners Melvin, Easter and Crumpey were instantly killed. Probably forty men were more or less seriously injured, many of whom will die.

Divorce for E. C. Wolcott.
Denver, Colo., March 6.—An absolute divorce was granted Mrs. Frances M. Wolcott from United States Senator E. C. Wolcott Monday afternoon. The complaint of Mrs. Wolcott sets forth that she married the senator May 14, 1890. She charged desertion without cause from Feb. 27, 1899, until the present date. A verdict was reached for the plaintiff and the decree was issued. It provided that Mrs. Wolcott shall receive \$7,500 a year alimony. Senator Wolcott made no defense.

American Locomotive Building
American shops turned out 2,437 locomotives in 1899—the largest number they ever manufactured in one year, and 593 more than were made in 1898. More than 25 per cent of the number, or 624, were made for railway companies in other countries.

DYSPEPSIA

AND OTHER STOMACH TROUBLES

Are primarily the cause of nearly all diseases. Most people have experienced ailments of this kind. Overloading the stomach, strong stimulants, unwholesome food, irregularities in eating, impure air, and the want of exercise are the principal causes. When the stomach becomes unable to perform its proper function a portion of the food is left in the stomach to ferment and decompose, and then taken into the blood. This, of course, does not furnish the supply of nourishment that the body needs—hence, disease. To cure these diseases the cause must be stopped and the worn out tissues must be rebuilt.

Magnetic Healing

Will help nature to restore the broken down parts and make a permanent cure. Here is one case we point to with pride:
